

Application Guidelines for Professor Position

Department of Biological and Environmental Engineering (Laboratory of Biological and Environmental Information Engineering)
Graduate School of Agricultural and Life Sciences, The University of Tokyo

1	Position	Professor
2	Number of Positions	One
3	Starting Date	March 1, 2024 or the earliest possible date thereafter
4	Term of Employment	Non fixed-term
5	Work location	1-1-1, Yayoi, Bunkyo-ku, Tokyo (University of Tokyo Yayoi Campus)
6	Affiliation	Department of Biological and Environmental Engineering, Laboratory of Biological and Environmental Information Engineering Graduate School of Agricultural and Life Sciences, The University of Tokyo
7	Job Details	1)Research area: Biological and Environmental Information Engineering: The research field that utilizes the methods of information engineering to acquire and analyze information from the cellular level to the scale of plant individuals and communities, and further, to the regional and global environmental scales such as ecosystems and biospheres, thereby elucidating the relationship between organisms and the environment. 2)Teaching responsibilities for undergraduate course subjects: Lectures for undergraduate students must be given in Japanese 3)Teaching responsibilities for graduate course subjects: Research in Biological and Environmental Engineering I, Laboratory Work in Biological and Environmental Engineering, Seminar in Biological and Environmental Engineering, Research in Biological and Environmental Engineering II, Advanced Laboratory Work in Biological and Environmental Engineering, Advanced Biological and Environmental Information Engineering I, Advanced Biological and Environmental Information Engineering II, Fundamental Engineering in Biological Environment, Agro-Informatics Seminar
8	Working Hours	Discretionary labor system: Working hours is deemed as 7 hours and 45 minutes per day
9	Days Off	Saturdays, Sundays, national holidays, and year-end through New Year holidays (from December 29 to January 3 of the following year).
10	Salary	Basic Salary will be decided taking your academic background, professional background, etc. into account. Wage Raise System: Yes Examples: Doctor / from JPY 340,000 Various Allowances: Bonus (twice a year), Commuting Allowance (basically up to JPY 55,000), and other allowances decided by the University
11	Insurance	Appointees will be enrolled in the Mutual Aid Association of Ministry of Education, Culture, Sports, Science, and Technology as well as employment insurance.
12	Required Qualifications	1) Ph.D., an equivalent qualification. 2) The applicant must have outstanding research achievements in the field of Biological and Environmental Information Engineering, and actively leads the research field. 3) The applicant can actively educate students in the field. 4) The applicant can actively participate in the organizational management of the graduate school and department, and who can promote education and research in cooperation with faculty members in various research fields. 5) The applicant must be able to teach the subjects listed in 2),3) of 7. in both Japanese and English. The applicant must have proficiency in Japanese. 6) Those who have ability and enthusiasm to actively develop educational and research activities from an international perspective and social collaboration with industry, government, etc.
13	Application documents	1)Curriculum vitae (Please use The University of Tokyo Standard Resume Form, downloadable from the following link: https://www.u-tokyo.ac.jp/en/about/jobs.html) 2)List of academic publications 3)Reprints of major papers, not more than 5 4)Educational Achievements 5)Acquisition of competitive funds (Within about 5 years) 6)Social contributions (academic society activities, committee activities, etc.) 7)Summary of research until now (about 750 words in English or 1500 characters in Japanese) 8) Research direction after assuming the position (about 750 words in English or 1500 characters in Japanese) 9) Educational plans and aspirations (about 750 words in English or 1500 characters in Japanese)
14	Application Deadline	1) All documents must be received on or before (Friday, December 8, 2023) . 2) After screening of the application materials, short-listed candidates will be interviewed.
15	Contact Information	Application documents should be sent as a set of PDF files with a password to agyoshi[at]mail.ecc.u-tokyo.ac.jp (please replace [at] with @) with the subject line "Application documents". If the total file size of the documents exceeds 50 MB, send the documents in separate emails so that the attachment size for each email does not exceed 50MB. Make sure of receipt acknowledgement of any documents from agyoshi[at]mail.ecc.u-tokyo.ac.jp (please replace [at] with @) 1-1-1, Yayoi, Bunkyo-ku, Tokyo, 113-8657 JAPAN Graduate School of Agricultural and Life Sciences, The University of Tokyo Department of Biological and Environmental Engineering, (Prof. Shuichiro Yoshida) TEL: +81(0)3-5841-5344 E-mail: agyoshi[at]mail.ecc.u-tokyo.ac.jp (Please replace [at] with @.)
16	Probation Period	There will be a six-month probationary period at the beginning of the appointment.
17	Employer	The University of Tokyo
18	Additional Information	Please note that application documents will not be returned. Personal information obtained through this application process will be used only for the screening and the recruiting of the applicants, never for any other purpose. The University of Tokyo promotes gender equality. We encourage applications from female researchers. Status of measures to prevent second-hand smoke: No smoking on the premises (There is a smoking area outdoors) During the period of employment, sharing controlled technology to you may be prohibited by FEFTA and it may become difficult to achieve your job as a faculty or a staff member of the University if you are under the control of a foreign government, corporation or university by contract, or under the control of a foreign government by economic interests.
