Departmental requirements for master's and doctoral degree programs are specified on the course list.

6. Periodical examinations

- (1) Students are required to act with academic integrity. There are serious consequences for cheating in examinations.
- (2) Some courses are graded based on written assignments only. Each student is responsible for the content of the submitted assignment. To avoid plagiarism, use quotes and cite the sources clearly for phrases, data, information on the website, etc. Failure to do so may result in disciplinary action.
- (3) Guidance and/or a written pledge may be necessary for certain research courses to avoid improper conduct.
- (4) Students can ask for grade re-evaluation only when they believe they received a failing grade

(fail/failure to pass an exam/course not taken) in error. A request for re-evaluation should be made to the academic faculty or the administrative staff within a week after the grade announcement date (approximately a month after the end of the term). Students completing the program should request without delay.

7. Class cancellation policy

When a weather warning for the Tokyo 23 ward is issued and public transportation (major JR, private railway, and subway services)* is suspended, classes will be canceled according to the following criteria:

A leave of absence may be granted for two months up to a year. In most cases, students request a leave of absence for a semester (April 1st – September 30th, October 1st – March 31st) or one academic year (April 1st – March 31st) since tuition is charged by the semester. It is possible to take a leave of absence for one term. If that is the case, please inquire first.

【Notes】

1. If there is an overlap between a part of an academic term and a leave of absence unit, students are allowed to take classes for that term.
2. Students may not be able to graduate by taking a short-term leave of absence due to the lack of enrollment requirements.

Make sure to consult the Academic Affairs Division regarding leave of absence to avoid complications

To extend the leave of absence, a student needs to resubmit a request for a leave of absence as well as other necessary documents.

When the reason for the leave of absence is no longer present, submit a request for resumption of study.

10. Program withdrawal (The University of Tokyo Rules on Graduate Schools 30, The University of Tokyo General Rules on Faculties Article 23)

Students who intend to withdraw from the University of Tokyo must submit a document stating the reason for withdrawal to the Graduate Student Section.

*Tuition will be incurred if the withdrawal procedure is not followed or if the withdrawal request is not made in time.

11. Study abroad (The University of Tokyo Rules on Graduate Schools Article 28, The University of Tokyo General Rules on Faculties 14)

Submit a “Request for Study Abroad” form stating the reason in advance, preferably 2 months beforehand.

*Credits obtained at universities abroad may be approved upon completion of the necessary procedures.

Upon entering graduate school, make sure to register your home address on UTAS over the Web. If there is a change of address, you need to re-register immediately. E-mail1 of the “information on current address” column should not be a mobile email address, since important notification will be sent from the Academic Affairs Division to that address. You also need to keep your E-mail1 address up to date. If you are blocking certain emails, make sure to allow emails from daigakuin.a@gs.u-tokyo.ac.jp.
